

EXPLORER'S CLUB

CALLING ALL EXPLORERS, INVENTORS, AND CREATIVE THINKERS!

We are offering a new option this year for our three and four year olds. This will be an enrichment program that will explore the concepts involved in the STEM (science, technology, engineering, math) movement which is popular right now, as well as other academic areas of importance. The program will meet on Mondays from 1-3:30. You can sign up for the whole year or just sign up for the months that you are interested in the topic. The cost will be \$70 per month for those not already signed up for extended day and will include the stay 'n play time for lunch.

We will be doing lots of hands on projects and using naturally exciting materials for preschoolers. Our topics are high interest too and we anticipate lots of creativity, exploration, and inventiveness! The topics are listed below.

- OCTOBER – LITTLE INVENTORS**
- NOVEMBER – LEGO LEARNING**
- DECEMBER – LITTLE ARCHITECTS**
- JANUARY – STEM IN MY WORLD**
- FEBRUARY – MATH, MUSIC, AND MAKING**
- MARCH – RAMPS, PULLEYS, LEVERS, AND MAGNETS**
- APRIL – SOGGY SCIENCE**
- MAY – HAPPY HABITATS**

If you are interested in this program, please fill out and return the slip below.

I would like to enroll my child, _____ in the Explorer's Club! Please sign him/her up for:

_____ the whole year

_____ only the month's I have listed here - _____

_____ I am interested, but will decide on a month by month basis.
